## What is Pomegranate

Pomegranate Institute offers all living languages, intercultural and management skills. Instruction is available through various delivery platforms (face-to-face, virtual, online, mobile, study abroad) and in any possible format. Our programs are custom-designed to fit the specific needs of our clients, should they be large or small corporations, individuals, young students or children.

We believe in a world where communication has no barriers. Our training solutions are designed to overcome the boundaries for global communication such as time, place and cultural differences. A Pom-Learner understands that communication goes way beyond languages and is qualified to speak with confidence.

## Our Training Programs

"Soft skills" is an unfortunate term. It sounds weak or dull.

The fact is that soft skills are the most important skills for your career. They are the skills that are difficult to systemize and automate. They are the skills that define leadership and creativity. By definition, soft skills are those skills that are difficult to measure. In other words, hard skills can easily be measured by a test but soft skills can't.

It's easy to determine who has the best math skills. It's difficult to determine who's best at innovation or diplomacy.

The following list of soft skills could be useful for your resume, job descriptions or training plan.
